NO BLUE LAW CAMPAIGN. NONE OF THE ANTI-TAMMANY BODIES WOULD HAVE IT.

The Alliance of Crime and Authority Is Another Matter, and That They Propose to Put an End To-Stecklers Will Join Against Tammany When the Campaign Opens.

Col. Willis L. Ogden, chairman of the Subommittee of Twelve of the Citizens' Unon's One Hundred, said yesterday that nopody need be alarmed about the intention of the members of the various bodiles which are uniting to crush Tammany Hall at the fall election in regard to the administration of affairs as far as the adoption of Blue Laws for the government of the community were oncerned Col. Ogden and Robert Fulton Cutting, the chairman of the City Committee of the Union, were both asked what the intention of the Union was in regard to such essary for any person to do in order to understand what the attitude of the organization was was to read the platform adopted by the City Convention at its meeting in May Section 4 of that platform is as fol-

"We further demand a reasonable and liberal administration which shall protect all citizens in the exercise of their rights without class distinction."

Mr. Cutting said that he thought this declaration was explicit enough to convince anybody that the men who make up the union body that the men who make up the union had no idea of subjecting the community to a Puritanical administration.

It is known that the Republican County Committee is strongly in favor of a liberal interpretation of all the laws that affect the liberties of the citizens, and so are the members of the Greater New York Democracy. The one thing that none of these organizations will countenance is an alliance between crime and the municipal authorities.

As a matter of fact there is not any fear on the part of anybody that a victory for the anti-Tammany forces means an illiberal administration.

on the part of anybody that a victory for the anti-Tammany forces means an illiberal administration.

Charles Steckler of the Manhattan Democracy said yesterday that after the courts had adjourned that organization would be called together to make preparations for the campaign. "It would be foolish, I think." Stid Mr Steckler, "to begin an active campaign against Tammany Hall until the middle of September. It is hard to get people to take an interest in politics in the summer months. Then there are many men who are in sympathy with our organization but who do not wish to expose themselves to the annoyances to which Tammany can subject them any longer than is necessary. Thousands of men who have heretofore voted with Tammany are ready to desert it this year. We will have a large body of laboring men with us this year. We can count on the 'silk-stocking' vote to be against Tammany It is the laboring vote that we must influence to be against it. The ticket must be made from top to bottom of good, honest men. A political ticket is only as strong as its weakest candidate. Catch phrase platforms will not deceive the people. Tammany's platform will read as well as that of its foes. There must be no blue law business. Between honesty with illiberality on the other, many voters will choose liberality. other, many voters will choose liberality Let honesty and liberality be the battle

CASH REGISTERS NOT TABCGED. Union Labor Withdraws Its Opposition to Their Use by Merchants.

DAYTON, Ohio, June 4 - The strikers have withdrawn their opposition to the cash register. To-day at noon the business manager of the Allied Metal Mechanics declared that all unions should cease to agitate against the cash registers by going into business houses and asking that the machines be turned to the wall. The strikers had met with poor success at their work, as the merchants usually told them to get out. The strikers saw that the public sentiment was against them, as the machines were made and sold when the shops were running with union workmen. They were fighting their own union product.

Capt. Robert Patterson. Sr., brother of the manufacturer of the machines, died of heart failure to-day and his death had a tendency to quiet the strikers somewhat But it is generally conceded that the agitaon would have failed anyway. One of the leaders of the strike said to-day: We do not want to be antagonistic, no

do we wish to be disrespectful to the family and relatives of the dead " There is no settlement of the strike in

sight, however.

NON-UNION MAN ATTACKED. His Assailant Sentenced to Jail for Four Months -Turmotl in Waterbury.

WATERBURY, Conn., June 4 -- Foreman Jones a non-union machinist, was attacked yesterday as he left the machine shop of Blake & Johnson, and in the jostling and crowding of the assemblage, augmented by outsiders and street gamins, he was thrown down and so roughly hurled that the authorities determined to check the lawlessness. George Rowley, who was the offending union man. was sentenced to jail for four months by Judge Burpee to-day and fined \$40. It was proved that Rowley besides taunting him yelled at him: "You are trying to beat us, but you can't," and that the man who yelled. "Give it to him, boys," was one of the committee sent to convert Jones to unionism.

This sentence of Rowley has not checked the arder of the union pickets. This evening another, William F. Scott, taunted another non-union man and was arrested. This action is against Section 1509 of the Connecticut statutes, which prohibits jeering or insult of this kind

The union men have obtained ball for Rowley and will test the case of Scott fully.

REPUBLICAN CLUB FEDERATION. Sterling Club Wont Go In if It Is Going to Dictate Candidates.

The Sterling Republican Club of the Twenty-third Assembly district, in which the idea of a federation of all the Republican clubs in New York city had its birth, had a red-hot meeting on Monday evening and passed a resolution declaring that it would not enter any such federation unless at the next convention of delegates a resolution was passed pledging the association not to indorse any candidate for office until after the Republican conventions are held this fall. The resolution was offered by Moses M. McKee, the leader of the district Frank F. Davis, who was the head mover in the federation plan, opposed it. It was adopted by a vote of 54 to 28.

The federation is not getting along as well as some of the men who are interested in it expected and hoped. A good many people got the idea that it was to be turned into an anti-organization machine. passed a resolution declaring that it would

WORK FOR WHOM YOU LIKE.

Time Coming When Intimidators of Workers Will Pay Dearly, Says Magistrate Crane. John Stevenson of 232 Willis avenue

was held yesterday by Magistrate Crane in the Morrisania police court for trial for assaulting Frederick King of 900 East 138th street. Both were employed in the De La Vergne Refrigerator Company's factory at 138th street and Locust avenue.

When there was a strike King was one of the few old hands who refused to join the strikers. Stevenson met him a few days ago near the factory and gave him a beating.

You may work for whom you please,' said Magistrate Crane to Stevenson, "and leave whenever you please, and if you can do better, or get more money, that is all right, so far as you are personally concerned. But the law will not permit you natters, and they said that all that was nec- | to interfere with other men or their employment.

"They have the same rights as you have to sell their labor for what they see fit, work as many hours as they please and to receive whatever compensation agreed upon between them and their employers -and it is not within the province of any man to interfere with them. When you try to prevent another man from working and supporting his family without reason you should be punished for it. The time is not far distant when the Legislature will pass stringent laws to punish severely men who attempt to intimidate others from securing employment, or to force others to pay wages outside of what is legally and justly right.

"You men do not consider those who furnish the capital which gives you employment, nor whether your action will ruin them financially."

TUNNEL STRIKE OFF AT LAST. Contractor and Unions Sign an Agreement That Is to Last Two Years.

The agreement between the settlement committees of the Rapid Transit contractors and the Central Federated Union was signed yesterday afternoon and the strike was formally declared off last evening. Under its terms the strikers must return to work within twenty-four hours after the strike was declared off in order to secure ream ployment.

The final conference between the two committees took place in the office of John B. McDonald, the general contractor for the subway, the only point at issue then being that of discharging the non-union men who had taken the strikers' places. The contractors' committee said that the strikers were themselves to blame for the employment of non-union men, as they had struck at the commencement of a long period of rainfall when it was necessary to have men constantly at work on some of the sections

the sections.

The C. F. U. Committee declared that the refusal to discharge the non-union men meant the end of all negotiations and rose to go. Some of the other contractors who were waiting outside were then consulted and negotiations were resumed, resulting in an agreement for two years being signed by both committees.

It provides that the hoisters, who de-manded \$2.50 a day, will receive \$2.26 manded \$2.50 a day, will receive \$2.25 a day up to July 1, when the wages will be \$2.50. The other trades will receive the present prevailing union rate of wages, and the working day will be eight hours in all cases. The agreement was made for two years because union wages may be higher the wages here. higher two years hence than they are now. If any difference or dispute arises as to wages at the expiration of two years it is

wages at the expiration of two years it is to be settled by arbitration. It is provided also that all the strikers who applied for work within twenty-four hours after the strike was declared off will be reinstated. The non-union men will not be discharged, but will be asked to join the union. Those of the strikers returning to work whose regular places are filled will be kept on the pay rolls and assigned to other duty until they can resume their regular work, as more men will soon be needed.

regular needed.

The walking delegates whose unions were involved in the strike met last evening at 91 Centre street, ratified the agreement and declared the strike off. Then they ordered the strikers back to work. A property of the strikers back to work as held at meeting of the strikers was being held at 150 East 125th street when the order to return to work was received. Most of the strikers made a rush to various sections of the tunnel and went to work on the night shift. The rest will return to work this morn-

ST ALBANS, Vt. June 4 - Favored by a light freight and passenger business, the Central Vermont Railway Company has been able to run its trains very nearly on schedule time since the walk-out of its employees in the locomotive department of its shops here a fortnight ago. This, however, has not been accomplished without the aid of several of the original force is now at work in the locometive department, and there seems no probability of the number being increased.

Terre Haute, Ind. June 4.—Manager Clark, of the Terre Haute and Brazil Street Railway and Electric systems, owned by a Boston syndicate, has served notice on the men that tied up the lines in both cities last night that they will never again be employed. No effort was made this morning to the men that tied up the lines in both cities hast night that they will never again be employed. No effort was made this morning to run cars, but it is understood that men are to be brought here from other cities. The strice was ordered because two firemen at the Brazil power house were not reinstated. They struck for an advance in wages, which Manager Clark granted last Saturday night. He says he has no work for them. The committee which conferred with him say he explicitly agreed to reinstate the men.

Machinists Decline Proffered Concessions

PLAINFIELD, N. J. June +-Following the temporary granting of the machinista' demands by the Aluminum Plate and Press Company the strikers received word last evening that the Pond Tool Works were willing to make concessions. This morning a committee from the strikers called on the officials of the company. They were informed that the company's terms were fifty-seven hours a week with sixty hours' pay. The employees of the Pond works were also asked to meet the gang bosses and if possible agree on some plan of procedure. The proferred terms were refused, but the strikers' committee met the bosses at the time mentioned. The conference did not result in a settlement. Company the strikers received word last

THREE KILLED IN A WRECK. Switch Engine on a Siding Dashes Into a Passenger Train in Atlanta.

ATLANTA, Ga., June 4 - Three persons were killed instantly, three mortally wounded, two more dangerously hurt and ten injured slightly in a wreck that occurred this morning on the Southern Railway on the edge the city. The dead are: Mrs. A. A. Lemon, McDonough, Ga; Irma Lemon, daughter of Mrs. Lemon; H. H. Vickers, Flovilla, Ga. The mortally injured are: Mrs. Julia Kersey, 4 Ella street, Atlanta; A. F. Bunn, McDonough, Ga. A. F. Fouche, McDonough, Ga.

The accident occurred about 10:45 o'clock this morning. At that time the Southern passenger train from Macon, due in Atlanta at 10:55, was passing through the yards near the shops at a high rate of speed On a switch from the main line, at the eastern end of the shops, a switch engine was standing. As the passenger train was passing the junction of the switch and the main line, the switch engine suddenly leaped backward and onto the moving conches.

Southern Knilway officials declare that the throttle of the switch engine in some way became unmanageable and that the man in the cab was unable to control his machine.

The man who was in the cab was Yard Conductor Duncan. He was arrested by Policeman G. F. Davis, upon the report that without knowing anything about an engine he was playing with it. The switch engine struck the two last passenger coaches. It is alleged that several of the yard employees will swear they saw Duncan open the throttle. The latter declares that he was not in the engine at the time of the accident the shops at a high rate of speed. On a

SPEEDWAY IN SHAPE.

Red Lawn Mixed Up in Several Good Brusher

-Malacca Leads Teto by a Nose. Footing on the Speedway never was better than it was yesterday, but not as many road riders took advantage of it as might have been expected. David Lamar's pacer, Red Lawn, did more work during the afternoon than any other of the horses, as he was mixed up in a greater number of brushes In his first "go" he started above the bend with the fast bay gelding Merry Pat, driven by Edgar Bronk. It looked as though it was going to be a real sporty brush until near the point of rocks Merry Pat was taken in for some reason and Red Lawn went down past the finish with great speed. One of his forward boots became loosened and he showed a disposition to go unsteady from not being checked high enough. Mr. Lamar had his boots removed, his check shortened and he went much steadier, heading

Mr. Kennedy, driving Ambidexter, one of the old Speedway favorites, led Teto in one dash down from Dykeman street and the gelding showed a great deal of his old-time form Dr. H. H. Kane with his trotting stailion King Rene, Jr., had a good brush with Dr. Moore's bay gelding Tioga, it was the fastest work that King Rene has been called upon to do since he has been driven by Dr. Kane and he won by a length. There was a good three-cornered brush between Edgar Broak's Merry Pat, Marcella and Ball Bearing, Mr. Scheldwachter's chestnut gelding Merry Pat finished a length ahead of Marcella, Ball Bearing being a close third.

ahead of Marcella, Ball Bearing being a close third.

Mr Ayres did a bit of fast work with his gray gelding Success, winning three or four brushes, among them one against Malacca Mr. Straus had his big bay gelding Freddy going fast. He is a remarkably long-gaited horse and in his first brush hit the wagon. His traces were lengthened and he was started down against Ada P., but again hit the cross bar and was beaten.

A B Gwathmey drove his team, Salient and Beiton, Jr., but did not send them very fast. Fred Gerken logged his clever little mare, Baby Bernice, George Putney was out behind his pair of blacks. L. Oettinger drove a voungster called Electsort, by Election, which is said to be fast and which they expect to cut loose later in the season. George Coleman timed himself a quarter of a mile with the gray gelding Tippo and said he made it in 33 seconds.

Natham Straus did very last work with his spotted trotter Malacca. His best brush although he was speeded down the stretch at a Grand Circuit gait alone, was with the ciever little mare Teto, driven by Mr. Lamar. Teto is fast in getting away and dashed ahead of Malacca at the start, but was taken in and waited for the spotted fellow to catch up. Then they made a great race to the finish, Malacca winning by a nose. In fact, the finish was so close that both Mr. Lamar and Mr. Straus were willing to call it a dead heat, but those who stood opposite the finishing post declared that Malacca had the better of it. Mr. Straus stated, however, that Teto had been pulled in and waited for him. Little Belle, driven by DeWitt C. Flanagan, had two interesting brushes with John F. Cockerill's mare. Honor Bright. In the first brush she went down with a burst of speed that would be hard to beat, passing the post at least two lengths shead of the Cockerill mare. Their second heat was a harder contest and was a grueiling brush. It was a drive all the way. Half way down from the point of rocks Honor Bright began to draw away and finished in front by half a length.

M'CRACKEN COMING TO COLUMBIA. Cannot Compete in Athletics, but Can Serve

Josiah Calvin McCracken, the noted athlete of the University of Pennsylvania, has accepted the invitation of President Seth Low of Columbia University to serve as gen-eral secretary of the new students' hall at Columbia. McCracken has expressed him-self as desirous of associating with Colum-bia affairs, but as he is barred from active participation in athletics it is expected that his services in coaching several teams will be forthcoming.

the Pan-American Stadium to-day were witnessed by a large crowd, but were without men, but only one showed up. Parker's opponent was Otto Muller, a 200-pounder of the Carl Abs A. C. For the first four minutes Muller kept the little lightweight on the "go", but when five ninutes had elapsed Parker had his man sitting on the mat After two more minutes, Parker secured a half Nelson, but through his cleverness Muller easily broke it. Then Parker got a hold around his man's body and laid him flat on his back winning the bout.

Several short wrestling bouts were decided at a Bowery theatre last night. Four classes were represented, and the incentive was money prizes. Leo Pardello was referee. With the exception of the final bout the affairs were limited to tag minutes, and the style was catch-ac-catch-can. The first-pair were young Harris and Dave Donovan at 115 pounds. Donovan secured a half Nelson and threw his man in two minutes. Kid Murphy and young Charles next came together at 100 pounds. Murphy said that he weighed only 65 pounds. The twain wrestled hard for the limit and the verdict was a draw. Kid Nooby next threw the "Young Turk" in easy fashion. Nooby gained a fall with a "hammer lock" in 1 minute and 40 seconds. When Davis and C. Lynch made things interesting for 2 minutes and 40 seconds, when Davis threw his rival They weighed 125 pounds. The last contest was to a finish for a side wager of \$50. have to be declared off. A week ago Ed Homan, on behalf of the San Francisco A. C. promised to notify his club regarding the bout, but up to date Billy Madden, Martin's manager, has not heard from him. Homan said that the Western organization would said that the Western organization would give a purse of \$1,000 for the fray. When the match was made Madden deposited \$1,000 with 41 Smith, who is to choose the referee and act as stakeholder. Up to yesterday, however, Walcott's manager had not covered the deposit. It is thought that he will not leave his money with Smith until he receives assurance that a club has bid for the fight. Madden said vesterday that he is ready to let Martin meet Walcott in private if it comes to a pinch. All he wants is that the mill shall come off as soon as possible. Martin is busy getting into good condition. how long the crew will row in this order is doubtful. The present order: Stroke, Hugh Bancroft: 7, Ayer: 6, Bullard: 5, Lawrence; 4, Shuebruk: 3, F. ITHACA, June 4 - Change is the rule in the development of the Cornell 'Varsity. Tonight a shift was made which is the second since the second crew race on last Thursday Bellinger and Sebring, both of whom rowed in the successful crew last Thursday, and who were sent to the first shell the following day, were to-night ousted from the Hegarty Will Be Matched Against Kid Broad featherweight and lightweight champion of Australia, arrived here on the steamer Sonoma on Sunday. He will not meet Terry McGovern this month, as was originally scheduled Chief Steward James of the Sonoma, who has brought out several Sonoma, who has brought out several notables from the Antipodes, has charge of Hegarty He says his man would not be in condition to fight in less than six weeks. Even if he were James thought it would be better to put Hegarty first against a man not so good as Terry. In this way he thought public interest would be aroused. Hegarty is said to be ahard hitter and the eleverest man of his class who has come here.

At a conference has night of McGovern's and Hegarty's managers it was decided to match Hegarty with Kid Broad or Dave Sullivan, the winner to meet McGovern in two or three mentls.

Rowing at Harvard and Cornell.

Cambridge. June 4.—For the first time in three weeks there was a shake-up in the Harvard 'Varsity crew to-day. It was thought that the coaches had picked their crew from the fact that there had not been a change for so long a time. But yesterday the changes began with McGrew of the second crew displacing Emory at 3. This did not make much improvement and a little later McGrew displaced Guy Bancroft at 2, and F. Blake went in at 3. Even with these changes the boat did not run well, and just how long the crew will row in this order is doubtful. The present order: Stroke, Hugh Bancroft in Aven at Bullerit 5.
